

COVID-19

EVERYDAY STEPS

- wash your hands often with soap and water or alcohol-based hand sanitizer
- sneeze and cough into your sleeve
- avoid touching your eyes, nose or mouth
- avoid contact with people who are sick
- stay home if you are sick

PHYSICAL DISTANCING

Everyone should practice physical distancing to reduce their exposure to other people — this means staying at least two metres away from anyone where possible

The best way to stop the spread of COVID-19 is by staying home and avoiding close contact with others outside of your household.

FACE COVERINGS AND FACE MASKS

You may consider using a face covering (non-medical mask such as a cloth mask or bandana). Although face coverings will not protect you from getting COVID-19, it does reduce the risk of transmission where physical distancing may be challenging or not possible, such as:

- public transit
- smaller grocery stores or pharmacies
- when you are receiving essential services

Medical masks (surgical, medical procedure face masks and respirators like N95 masks) should be reserved for use by health care workers and first responders.

COVID-19 SELF-ASSESSMENT SURVEY

PLEASE COMPLETE THIS SURVEY BEFORE ATTENDING
RBC BLUESFEST DRIVE-IN

DO YOU HAVE ANY OF THESE COMMON COVID-19 SYMPTOMS?

- fever
- cough
- difficulty breathing
- muscle aches
- fatigue
- headache
- sore throat
- runny nose

WITHIN THE LAST 14 DAYS HAVE YOU:

- been in close contact with someone who is sick?
- been in close contact with someone who has confirmed COVID-19?
- returned from travel from outside of Canada?

If any of these apply to you, please refrain from entering the Drive-in site,
and contact your local health department.
